

Technical drawing of a wall cross-section. The wall is composed of several layers: a structural layer on the left, a thick insulation layer (indicated by diagonal hatching), a structural layer in the middle, another thick insulation layer (indicated by diagonal hatching), and a final structural layer on the right. A vertical dimension line on the left indicates a height of 216. A horizontal arrow labeled 'Nível do Solo' (Ground Level) points to the base of the wall. A red line and a red square symbol are visible on the middle structural layer.
